- **Fundamentals With SQL Certification** — It Vedant — 2023

---

## Personal Projects

### Chat Application

Jan '25 - Present

*Technologies:* MongoDB, Express.js, React.js, Node.js, Socket.io, JWT

- Developing a real-time chat app with the MERN stack, JWT authentication, and Socket.io for real-time messaging.
- Implementing responsive UI with React.js, including features like emoji/file sharing and notifications.
- Focused on building a scalable architecture to support multiple concurrent users.

### Hirely Job Portal

Nov '24 - Jan '25

*Source Code:* [github.com/sohelshaikh74/hirely-job-portal](https://github.com/sohelshaikh74/hirely-job-portal)

*Technologies:* ReactJS, Tailwind CSS, NodeJS, Express, MongoDB

- Built a full-stack job portal with features like job posting, user authentication, and search functionality.
- Implemented real-time updates and job application tracking with a backend in Node.js and MongoDB.
- Focused on creating an intuitive user interface for both job seekers and employers.

### YouTube Clone

Mar '24 - May '24

*Source Code:* [github.com/sohelshaikh74/youtube-clone](https://github.com/sohelshaikh74/youtube-clone)

*Technologies:* React.js, Vite, Tailwind CSS, Axios, RapidAPI

- Developed a YouTube clone with video playback, search functionality, and user interaction.
- Optimized the UI with Tailwind CSS and performance using Vite, Axios, and RapidAPI integration.
- Integrated API-based video data and optimized video streaming for better performance.
